

**Report of Independent Certified Public Accountants on Compliance and on
Internal Control over Financial Reporting Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Honorable Mayor, City Council and City Manager
City of North Miami, Florida

We have audited the general purpose financial statements of the City of North Miami, Florida (the City) as of and for the year ended September 30, 2001, and have issued our report thereon dated February 8, 2002.

We conducted our audit in accordance with auditing standards generally accepted in the United States, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the City of North Miami's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters that we have reported to management in the schedule of findings and questioned costs accompanying this report as items 01-1 to 01-3.

Honorable Mayor, City Council and City Manager
City of North Miami, Florida
